

# Young The Giant - Oblivion

tom:

Intro: E  
[Primeira Parte]

Rich bored kids  
Pissing away fortunes  
They'll be on their skids  
Mothers will be tortured  
And their dads on pills  
Full of disappointment  
Cuz they got no skills  
Can't fix shit but it'll be okay  
When all the money's gone away  
And they'll be free  
When they're reckless just like me  
When they're reckless just like you  
You've been stuck inside a dream  
The one where you lose all your teeth  
And you're in school without your clothes on  
But you'll be okay  
Everyone I know has got their debt to pay

Sell your soul to make it, that's the modern way  
Are you reckless just like me  
Are you ready

[Ponte]

Oblivion is coming on  
Oblivion is coming on

[Segunda Parte]

Nothing's real  
I really mean it, that's the way I feel  
You see right through it cuz you're just like me  
The greatest magic trick you've ever seen  
Come on and disappear with

( E C A )

Oblivion land of uncertainty will come along  
Oblivion land of uncertainty will come along  
Oblivion land of uncertainty will come along  
Oblivion land of uncertainty will come along  
You can get there with me!
