

Young The Giant - Repeat

Tom: F

[Verso 1]

Somewhere in the forest, Where the waters meet
 Lie the days before us, Spinning on repeat
 There's darkness through the doorways, Silence in the streets
 There's something in the stillness, A distant memory

[Refrão]

Show me love, fill my cup
 The world's not empty
 It's how you want it to be
 Push and pull, the glass is full
 Float on an ocean
 We're caught up in the motion
 So we move
 (We just move, we're just moving)
 (We just move, we're just moving)

[Verso 2]

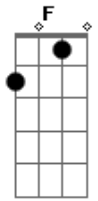

Somewhere in the mountains, And buried in the snow
 Life grows underneath us, A thousand leaves below
 Sunlight through the windows, Spilling on the streets
 No stillness in our orbit
 We keep spinning, We keep spinning, On repeat

[Refrão]

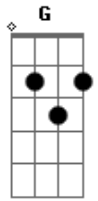

Show me love, fill my cup
 The world's not empty
 It's how you want it to be
 Push and pull, the glass is full
 Float on an ocean
 We're caught up in the motion
 So we move
 (We just move, we're just moving)
 (We just move, we're just moving)

[Final] F C G
