

Yuji - Old Love

tom: G

When you were here G

The stars disappear

Nothing can outshine Em the dress that you wear

We should be dancing C

'Cause girl you look stunning

Let's spend the night together till reach the morning D

Up and above G

Never enough

I want to hold Em your hand and show what is love

When you are smiling C

And when you are laughing

We should keep dancing to treasure the feelings D

Like it's the old love (it's the old love) G

This is the way that we both wanna feel Em

Under the moonlight we made our first kiss C

'Cause this is the moment that you made me feel D

Like it's the old love (it's the old love) G

Come on and hold me, I want you right here Em

Stay close to me so you don't feel the fear C

I'll never let go 'cause I'm just right here D

When I'm with you G

It's like déjà vu Em

I realized that dreams really come true

We keep on talking C for the moment we live in

Let's just keep drinking till the moon disappear D

You are the one G

The one that I want

The one that will Em stay by my side till I'm gone

The love of my life and I'll sacrifice C

Just for the moment we last long forever D

Like it's the old love (it's the old love) G

This is the way that we both wanna feel Em

Under the moonlight we made our first kiss C

'Cause this is the moment that you made me feel D

Like it's the old love G

Come on and hold me, I want you right here Em

Stay close to me so you don't feel the fear C

I'll never let go 'cause I'm just right here D

Like it's the old love G

(G Em Em C C D D)

Like it's the old love G

This is the way that we both wanna feel Em

Under the moonlight we made our first kiss C

'Cause this is the moment that you made me feel D

Like it's the old love G
