

Zayn Malik - Bright

Tom: G

I found my life
 In between shots and getting high
 The cage I was in
 Fell away when she asked me to dance again, yeah
 I found my life
 In between a first kiss and a last goodbye
 The dust settled down, now I can see through the crowd

I'm loving the colour white
 Surrounding your colored eyes

Though she is the kryptonite
 She stays in my crib tonight

I light her like dynamite
 Load her like gigabyte
 Turn out the fucking lights

I wanna see you bright

I wanna see you bright

I wanna see you bright

I wanna see you bright
 I wanna see you

For the love in my mind, love for the bass
 She likes getting high just for the day

She's different in night, she knows what I say
 Free of the flash, dirt on your shoes, I don't know you

I'm loving the colour white
 Surrounding your colored eyes

Though she is the kryptonite
 She stays in my crib tonight

I light her like dynamite
 Load her like gigabyte
 Turn out the fucking lights

I wanna see you bright

I wanna see you bright

I wanna see you bright

I wanna see you bright
 I wanna see you

I found my life in between shots and getting high
 The cage I was in fell away when she asked me to dance again

I wanna see you bright

I wanna see you bright

I wanna see you bright

I wanna see you bright

I wanna see you bright

I wanna see you bright

I wanna see you bright

I wanna see you
