

# Zayn Malik - Who

Tom: B  
Intro: E

When you're started in the dark  
And you struggle to find the light  
When you just try to find your way  
But you just can't find the time  
I'll come for you  
You know that I'll save you

Who you gonna call, gonna call?  
Who you gonna call, gonna call?  
When you need somebody  
When you need someone  
Who you gonna call, gonna call?  
Who you gonna call, gonna call?  
When you need somebody  
When you need someone  
When you need somebody  
When you need someone  
When you need somebody  
When you need someone  
When you need somebody  
When you need someone  
When you need somebody  
When you need someone

When the water's just too deep  
Getting chased by the shark  
When the pressure's just too much  
And you feel it in your heart  
I'll come for you  
You know that I'll save you

Who you gonna call, gonna call?  
Who you gonna call, gonna call?  
When you need somebody

When you need someone  
Who you gonna call, gonna call?  
Who you gonna call, gonna call?  
When you need somebody (Need somebody)  
When you need someone  
When you need somebody (Need somebody)  
When you need someone  
When you need somebody  
When you need someone

And who's right?

Let me know  
I'll be there

I'll be close  
It's your fear

That we won't  
If this dies

Be my ghost

Who you gonna call, gonna call?  
Who you gonna call, gonna call?  
When you need somebody  
When you need someone  
Who you gonna call, gonna call?  
Who you gonna call, gonna call?  
When you need somebody (Need somebody)  
When you need someone  
When you need somebody (Need somebody)  
When you need someone  
When you need somebody  
When you need someone
