Blood on the mattress, sweat on the ceiling
G          Bm      C            G
Shadows are dancing all across the wall
G          Bm    C      G
They call that hashin' out the passion
G      Bm  C           G
Tie me up,  t-t-tear me apart

[Refrão]

G        Em          C            G
And I got tossed in the tide of your rose

Well, under the night, you were mine, I was yours

[Segunda Parte]

G              Bm  C          G
Let the parade run over and over
G          Bm        C          G
And watch the town drunk try to get sober
```
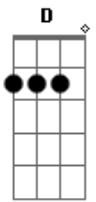

```
G            Bm        C          G
Yeah, watch the town run everyone over
G          Bm      C           G
We gave our money up to the rotten order

[Refrão]

G        Em          C            G
And I got tossed in the tide of your rose
G          Em            C         G
Well, under the night, you were mine, I was yours

[Ponte]

Am          D                G                  Em  G
Am
Watching you come undone in the backseat, rubbing my eyes
Am                        Bm   Em  Am
All the light, it shines for you
Am        D              G                  Em      Am
Spending all my time in a bed between your thighs
Am                                  D
Don't think I'll ever be through with you

[Refrão]

G        Em          C            G
And I got tossed in the tide of your rose
G          Em            C         G
Well, under the night, you were mine, I was yours
