

# ZeRO - Closure

tom:

Abm

Hey, look at me

Why are you acting like that? oh

You think you are so funny

Is it for love or the money?

You need to choose your side of the war

You need to bring back down on the floor

You need to choose your side of the war

Ou nunca vai saber

Abm Eb7

It's over, I just barely know ya

We're just going down, down, down, down, down

It's over, two knives on my shoulder

You just take me up to bring me down

Abm Eb7

Closure, midnight brings some closure

Every you time you show up

Angels with some broken wings, a bullet and a clover

Wish I never knew ya

You just take me down down down

Venha jogar também

Vou apostar a minha sorte

Break, now you wanna take, know you wanna lie

Now you wanna live beside my life and be just fine

Baby you can try, baby you can cry

Crocodile tears on my feet

(FALADO)

Dois pares, reis e rainhas, uma mão de mestre

0 ás na manga guardado para o momento perfeito

Revelaram uma carta qualquer, mas não importava mais

É mais fácil formar um par no baralho do que no nosso outro jogo

As vezes, as viradas são o que tornam a partida mais emocionante

E eu não tô falando sobre as cartas

Eu sou o rei do blefe, já que todos aqui estão mentindo sobre alguma coisa

Não jogamos com cartas, jogamos com pessoas

Por isso nunca aposte mais do que você pode perder

Eu não previ

0 que aconteceu

Pensei que era amor

Mas você me perdeu
