

# Zolita - What If

tom:

C (forma dos acordes no tom de G)

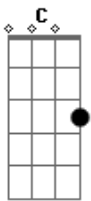

Capostrate na 5ª casa

Feels like poison  
 Having these thoughts around you  
 Cause if I think too loud  
 You might hear the doubts  
 Just avoid it  
 Play it off like we're perfect  
 Deep under the surface  
 We both know  
 That something ain't working  
 Do I pick up the pieces or leave 'em  
 You're asleep while I stare at the ceiling, thinking  
 What if I lose all that we have?  
 What if forever's a year and a half?  
 What if when I pick door number two  
 All I ever do is look for you  
 What if our love turns into hate  
 What if we're building this all just to break  
 I don't wanna say that's what this is but what if  
 What if it is?  
 What if?  
 What if?  
 Maybe we're holding each other back  
 Without me you could be the best version of you  
 Should walk away if I love you  
 But I hope that one day you'll get better

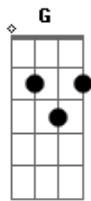

Someday we'll find our way back together  
 (We'll find our way)

Cause what if I lose all that we have?  
 What if forever's a year and a half?  
 What if when I pick door number two  
 All I ever do is look for you  
 What if our love turns into hate?  
 What if we're building this all just to break?  
 I don't wanna say that's what this is but what if  
 What if?  
 What if one day when I hear this song  
 Say I knew it all along  
 Or will we listen and laugh  
 Went to hell but we came back  
 One day when I hear this song  
 I'll still wish that I was wrong  
 Or will we listen and laugh  
 Went to hell but we came back  
 What if I lose all that we have?  
 What if forever's a year and a half?  
 I don't wanna say that's what this is but what if?  
 What if our love turns into hate?  
 What if we're building this all just to break  
 I don't wanna say that's what this is but what if  
 What if it is?  
 What if?  
 What if?  
 But what if?
